ALL GLASS

All Glass:

# COMPLETE COLD-END and PALLETIZING SOLUTIONS

## INTRODUCTION

All Glass Srl was founded and continues to grow thanks to the intuition of the founding management team that set up the company with the goal of manufacturing technological systems of advanced design for the glassmaking industry. The company is based in Traversetolo, Parma, northern Italy, with premises of 9,000 square metres, and currently has 60 employees.

## TOTAL CONTROL for total quality

All Glass is constantly informed with regards to the continuous innovations coming from the large-scale retail trade market and to the high level of technology and automation requested for packaging and palletizing systems.

In order to comply with the specific requirements of its customers, the company uses a rigorous process of quality control, during which each and every single phase of the in-house production is submitted to strict monitoring, and all sub-supply components are checked before assembling. Before authorizing shipment, all the handling systems are tested by a detailed internal commissioning attesting that the performances and the components correspond to the technical specifications agreed with the client.

In this way, optimization of time for installation and commissioning at the client's plant is guaranteed.

All Glass' wide and versatile product range, its flexible and dynamic company structure, constant investment in research and development, and the great attention to after-sales service have enabled the company to establish itself in different market sectors for the supply of palletizing, depalletizing and conveying lines.

All Glass is, today, recognized as a worldwide leader for the supply of complete palletizing and conveying lines in the cold end area, as well as for the production of multi-sector industrial packaging installations.

The use of cutting-edge technologies, an organized internal production process, and a prompt and reliable after-sales service guarantee the excellence of the machinery quality and the efficiency of the customer care.

Today, the firm is able to satisfy the diverse needs coming from the container handling and packaging world. Glass and PET bottles, cans, jars, bags, packs are just some of the container types All Glass machines are able to handle.

In the last few years, important names of the glassmaking industry have chosen All Glass: *Owens Illinois, Saint-Gobain, Vitro S.A.B.*

*de C.V., Fevisa S.A. de C.V., Crisnova Vidrio and Bormioli SpA*, just to name a few, obtaining complete satisfaction in terms of excellent performance, efficiency and assistance.
